# Guillermo Aguado

## FULLSTACK DEVELOPER

## ABOUT ME

I am a developer with knowledge on several coding languages and frameworks, as well as an extensive comprehension in Computer Science and Network Administration.

I leverage my comprehensive skill set to design and implement robust solutions that extend far beyond a mere online presence, delivering scalable infrastructures tailored to the unique needs of diverse businesses.

*May 2022 - June 2022*

## WORK EXPERIENCE

### Freelance Fullstack Developer

*PHSports | Madrid, Spain*
*June 2024 - Currently*

- I have accomplished the **development** and **deployment** of several multiplatform apps in this company.
- I have accomplished the app migration into a microservices architecture.

### Backend Developer (Internship)

*MTI Global Services | Drogheda, Ireland*
*March 2024 - June 2024*

- I have participated in the development of several webpages and apps using React, React Native for the frontend, and Django and Laravel for our backend
- Developed and implemented a chatbot with a NLP Data Engineering team.

### Business Analyst (Internship)

*MTI Global Services | Drogheda, Ireland*
*March 2024- June 2024*

- I automated the creation of reports developing a BI Data Analysis Python App, in which I interacted with a Salesforce database using REST APIs from Tableau.
